Purpose of Contact:

Requested permission to leave a mixed residue container that contained 10 ml of free liquids in a storage unit permitted only for solids.

Discussion

A container of mixed residue dry combustibles that failed RTR for 10 ml free liquids is currently being stored in Unit 776.1, Room 127, which is not permitted for liquids. During the monthly compliance meeting with CDPHE (August 22), I proposed leaving the drum in Rm 127 because ALARA concerns outweigh liquid concerns in this instance.

Cindy Burbach, CDPHE, agreed with this approach but requested additional information regarding the container: The following information is taken from a WEMS report: Unit: 776.1; Room 127; Stack 10; Package ID# D650521002205004; Waste Type REM; IDC, 0330 Combustibles, Dry; EPA Codes: F001/F002; Notes: RTR reject 05/26/99 free liquids and no rigid liner.

A review of the RTR report verified that the container had been rejected for 10 ml of liquid.
